

# GADUGOLU ROSHITHA

Entry Level Graduate | Software Developer

**Mobile:** +91 8143501072 **Email:** roshithagadugolu123@gmail.com **LinkedIn:** linkedin.com/in/Roshitha Gadugolu

## Career Objective

Seeking an entry-level software developer role to apply academic programming skills in active projects, aiming to learn from experienced professionals and contribute effectively to innovative solutions.

## Education

Bachelor of Technology  
KL University -AI&DS

July 2021 – August 2025  
CGPA – 9.54

Board of Intermediate Education  
Sri Chaitanya College -MPC

March 2019 – May 2021  
CGPA – 9.6

## Technical Skills

- **Programming Languages:** C, Python, Java
- **Web Technologies:** HTML, CSS, JavaScript,node.js
- **Databases:** SQL
- Data Structures & Algorithms, Machine Learning
- **Automation Tool:** Selenium
- **Cloud:** Azure, basics in AWS
- **Tools:** PowerBI

## Internships

**Graduate Engineer Trainee – .NET, LTIMindtree.**  
Trained in .NET, C# and SQL.

**Campalin Innovations**

May 2023 – June 2023

**Stock Price prediction using Machine Learning**

- Utilized cutting-edge AI techniques to meticulously analyze market dynamics, resulting in a notable improvement in prediction reliability.
- Developed and optimized machine learning models to predict stock prices.

**AICTE**

May 2023 – June 2023

**AWS Virtual internship**

- Developed cloud computing skills by actively engaging in hands-on tasks, resulting in improvement in understanding of AWS services.
- Executed AWS Cloud Virtual Internship, focusing on Cloud Computing.

## Projects

**Voice Based Email For Blind**

Sep 2023

- Implemented speech recognition technology achieving an accuracy rate of 95% for hands-free email composition and management.
- Engineered natural language understanding resulting in increase in user efficiency for navigating, composing, and managing emails.

**Retail insight generator**

Feb 2024

- Developed a comprehensive End-to-End Language Model (LLM) project tailored for a retail sector, specifically a t- shirt selling store.
- Leveraging a SQL Database chain within Lang chain framework, supplemented by few-shot learning techniques, the endeavour aims to construct a robust question and answer system.

## Certifications & Trainings

- Completed Programming Essentials in Python – Cisco.
- Automation Anywhere Certified Essentials RPA Professional(Automation 360)
- Google Cloud Certified Associate Cloud Engineer
- APSSDC-Python
- Advanced to three rounds in the Amazon Hackathon: coding, idea submission, and prototype development.
